

House Rules

Good agreements make good friends

We are happy to make some agreements with our visitors in the interest of everyone who stays or will stay in 'Guesthouse P&B Gillis 7' as well as for the neighbours. By complying with these agreements, this remains a unique place for everyone to stay.

The tenant and his co-tenants are obliged to occupy the rented apartment with the required care and diligence, taking into account the tranquility of the environment. In the event of any infringement(s), we refer to these house rules, which are inextricably linked to the General Terms and Conditions.

1. Respect the house rules

The tenant and those accompanying him or her must adhere to these house rules during their stay and declare that they are aware of them and that they accept them at the time of booking. Any breach of this may give rise to compensation or denial of (further) access to the apartment.

2. Do not cause noise or nuisance

The tenant must ensure that he does not cause noise or nuisance to the neighbors. In the event of infringement, all persons will be further refused access to the Guesthouse - without prior warning and without refund of rental fees.

3. No parties

It is forbidden to use the Guesthouse to organize bachelor parties, drinking parties or other wild parties. In case of infringement, the rental period will be terminated and access to the apartment will be denied, without the tenant having any right to reclaim the rent already paid.

** If other tenants have experience trouble due to non-compliance with house rules 2 and/or 3, the tenant will be charged an additional amount of 125.00 € to compensate for the nuisance.*

4. Only smoking zone is outside by the church

Smoking (tobacco, e-cigarette,...) and the possession and use of any form of drugs and narcotics is prohibited in 'Guesthouse P&B Gillis 7'. Smoking is also not allowed with an open window, on the windowsill or in the garden because of the fire hazard, noise nuisance and the chance of unnecessarily activating the smoke detectors present. Failure to comply with this smoking ban may lead to early forced departure without any financial compensation.

5. Stay only with the maximum number of guests allowed

The Guesthouse may only be occupied by the tenant, his co-tenants and any visitors up to the maximum permitted capacity. If the tenant still allows extra people to spend the night or stay in the apartments, an additional cost of 125.00 € per night will be charged.

This can lead to an early forced departure without any financial compensation. The use of own bedding, sleeping bags, inflatable mattresses is prohibited.

6. No animals allowed

Animals are not allowed for hygienic reasons. Any infringement gives rise to an early forced departure without any financial compensation and an additional cleaning fee of 125.00 €.

7. Do not test fire extinguishers or other safety devices

All (safety) devices (fire extinguishers, fire reels, report buttons, etc.) are present in the apartments in accordance with the fire safety regulations. The guest may not use these devices for improper use. This gives rise to an additional cost of 500.00 €, as well as compensation for the damage caused.

8. Keep it tidy

As a guest, you take care of the apartment, including all kitchen utensils, furnishings, furniture, equipment and appliances. The visitor leaves everything in good and tidy condition at the end of the stay. The tenant does not move furniture.

9. Close the windows and doors when leaving the Guesthouse

In case of present and insofar as the temperature permits, the tenant closes all windows or put them in tilt position of the living room. When absent, the tenant checks all windows and doors of the Guesthouse. All damage caused by rain and wind as a result of negligence, can be recovered from the tenant. If theft or damage occurs before we have checked the Guesthouse, this is the responsibility of the person who last left the Guesthouse.

10. Drones, night lanterns & fireworks

The use of drones is not allowed without our express written permission. Fireworks are not allowed. Night lanterns and candles are expressly forbidden as they are a fire hazard.
